Gospel Reflection

Today's gospel offers us some of Jesus' teaching that more than likely made him enemies. His preaching favoured those who were the poor, the sick and the marginalised. He overturned not only the social norms of his own time, but of our time too. Jesus, rather than simply tell the poor to be happy with their lot in life and accept it, also offers a challenge and warning to those who see themselves as powerful, mighty and wealthy. In the end it will be these powerful and threatened people who will put Jesus to death because he challenged and disturbed them. It will be the poor, the outsider and the persecuted who will follow him. Where do we find ourselves today? (<https://oblates.ie/gospel-reflection>)

Solitude

Solitude begins with a time and place for God.
